SUMMARY

Java Backend Developer with 3 years of experience designing and developing scalable web applications using **Core Java, JSP, Servlets, JDBC, MySQL**. Experienced in building MVC-based backend systems, optimizing SQL queries, and resolving production issues to enhance application performance and reliability. Strong foundation in Object-Oriented Programming, database-driven application design, and backend architecture. Proven experience in client coordination, requirement analysis, and application deployment support through international project implementations. Seeking a Java/Spring Backend Developer role to contribute to secure, efficient, and high-performance enterprise applications.

EXPERIENCE

• ETHDC Technologies

Software Engineer

Pune, India

Jul 2023 – Dec 2025

- Accumulated 2+ years of hands-on experience in Java, JSP, Servlets, JDBC and SQL, HTML, JavaScript development.
- Refactored legacy Java modules using Object-Oriented Programming principles, reducing code complexity by 40%.
- Oversaw technical aspects of project designs to ensure compliance with industry standards and client specifications.
- Built and maintained backend modules for a cloud-based application, improving database performance and scalability.

• ETHDC Technologies

Software Engineer

Bahrain

Aug 2024 – June 2025

- Led deployment and technical implementation of enterprise software solutions across 3+ international institutions.
- Managed and coordinated 8+ on-site projects, addressing client requirements and resolving technical issues.
- Trained and onboarded new team members on product features, support workflows, and best practices, enhancing team efficiency.
- Successfully deployed software solutions for 3+ clients in Bahrain in 10 months. (Multinational School Bahrain, Hawar International School Bahrain, Quality Education School, New Millennium School)

• Gsoft Solutions

Full Stack Java Developer-Intern

Pune

Sep 2022 – July 2023

- Began professional career as a Full Stack Java Developer Intern, building foundational skills in Java and Spring-based web development.
- Built web application features using Core Java, Servlets, JSP, Spring MVC, Spring Security, Spring JDBC, and MySQL following MVC architecture.
- Designed a Phonebook Directory Web Application with add, update, delete and search features
- Implemented MySQL database for secure data storage, retrieval, and CRUD functionality
- Focused on backend logic, form handling, request-response processing, and UI development
- Improved understanding of web architecture, MVC concepts, and real-time project development

SKILLS

- **Programming Languages:** Java, C, C++, Python, JavaScript, SQL
- **Backend** Core Java, Servlets, JSP, JDBC, Spring MVC, Spring Security, Spring Boot
- **Web Technologies:** HTML5, CSS3, JavaScript, AJAX
- **Database Systems:** MySQL, PostgreSQL
- **Cloud Technologies:** AWS (Certified Cloud Practitioner)
- **Version Control:** Git, GitHub, Docker, CI/CD
- **Specialized Area:** Object-Oriented Programming (OOP), Spring Boot, MVC Architecture, REST APIs
- **Other Tools & Technologies:** Tomcat, Jupyter Notebook, VS Code, Anaconda, Eclipse, Microsoft Excel

PROJECTS

- **Course Management System**

February 2026

Tools : Java, Spring MVC, Spring Core, Spring JDBC, Spring Security, JSP, MySQL, HTML, CSS, Ajax, Apache Tomcat

- Developed a role-based Course Management System using Spring MVC architecture to manage academic entities such as Courses, Subjects, Teachers, and Students.
- Integrated secure authentication and authorization using Spring Security with role-based access control for Teachers and Students.
- **Key Features:**
 - * Architected Controller–Service–DAO layered to ensure separation of concerns, scalability, and maintainability.
 - * Constructed Course, Subject, Teacher and Student modules with complete CRUD operations and course–subject relational mapping in MySQL.
 - * Integrated Spring Security to enable authentication and role-based access control (RBAC) for TEACHER and STUDENT roles.
 - * Built functionality for Teachers to upload and manage course-specific content, while enabling Students to securely view and download materials based on enrollment.
 - * Utilized Spring JDBC for efficient database operations and optimized SQL queries for improved performance.
 - * Configured server-side validation, form data binding, and deployed the application on Apache Tomcat.

EDUCATION

- **Pune University**

M.Sc. in Computer Science

Pune, India

August 2022 - June 2024

- **Pune University**

BSc Computer Science

Pune, India

August 2019 - July 2022

CERTIFICATIONS

- **Java Full Stack Developer**

July 2023

- **AWS Cloud Practitioner**

May 2025
